ROBOTICS Afterschool Club

At Jam Coding, our goal is to help improve children's digital skills. In this workshop, children will work in teams to custom build and code robots. They will complete a range of challenges, including navigating through mazes and competing in a robot wars competition! This workshop will use a variety of coding skills and languages to bring their code to life. At the end of the course, all children will receive a certificate and one team will receive a trophy!
