Enquiry Question of the week

What environmental damage has been done to the Great Barrier Reef and Uluru? How can areas like these be protected?

The Great Barrier Reef is a big underwater world with colourful coral and fish. It has been harmed by things like global warming and pollution. This can make the coral sick, and some parts have been damaged by tourists. To help the Great Barrier Reef, people are working to stop pollution and take care of the ocean.

In contrast, Uluru is a giant red rock in the middle of Australia. It is special because it is the biggest and most famous rock in the world. Uluru has special stories and songs from the Aboriginal people who have lived there for a very, very long time. Many unique animals and plants live around the rock. To keep Uluru safe, people have decided not to climb on it anymore.

Year 4 Home Learning - Dip and Do

Spring 1 Week 4

You must:

- Read daily at home for at least 20 minutes and record this in your diary. Diaries are checked on a Friday but you must have your reading folder in everyday.
- Learn the weekly spelling words which are sent home and assigned on Spelling Shed. You will be tested every Friday morning.
- Practise your quick recall of the Times tables on TTRockstars at least 3 times a week. [See challenge for TTRS.](#)

Please Dip into these tasks. You do not have to do all 3 each week but of course you can if you want to! Tasks are set every Wednesday and due the following Wednesday.

Gold

We are almost halfway through the year. Write a story, poem or song to include as many of your spellings from this year so far. Underline them so it is clear which are your spelling words.

Silver

Design a poster to explain what you have learned this year about Islam and why the 5 Pillars are important to Muslims.

Bronze

Use this link to create an experiment for singing glasses.
