Enquiry Question of the week

Each week we will post an Enquiry Question from the week's learning alongside the answer we would expect. Ask your child the question and see how close your child is to answering the question fully. If they are finding it tricky, break down the answer together and see if they can work on learning more at home.

What is the impact of river pollution on The Nile?

River pollution has significant effects on the Nile, which is a crucial water source for several countries in northeastern Africa. Pollution can make the water toxic for animals that live there as well as anyone that uses the river for drinking water.
