Enquiry Question of the week

Each week we will post an Enquiry Question from the week's learning alongside the answer we would expect. Ask your child the question and see how close your child is to answering the question fully. If they are finding it tricky, break down the answer together and see if they can work on learning more at home.

What do different plants need to grow in different habitats?

Different plants need different things to grow because they live in different places, just like how you might need a jacket when it's cold but not when it's sunny!
