Enquiry Question of the week

Who was Florence Nightingale and why was she significant?

Florence Nightingale was known as 'The Lady with the Lamp' - because she walked up and down the corridors of the hospital looking out for her patients. She was a nurse from 1844, and famously helped soldiers in the Crimean War (1854 - 1856). She improved how hospitals looked after patients and is known for making them cleaner and safer. She trained a team of nurses, and also then wrote books to help train nurses across the UK and beyond. She is a significant person in our history because of how she improved nursing and the quality of hospitals.
