## Enquiry Question of the week

Each week we will post an Enquiry Question from the week's learning alongside the answer we would expect. Ask your child the question and see how close your child is to answering the question fully. If they are finding it tricky, break down the answer together and see if they can work on learning more at home.

### **What are the environmental dangers to the Great Barrier Reef?**

**Climate change** – warmer sea temperatures can cause coral to bleach and die.

**Pollution** – rubbish, plastic and chemicals from the land can wash into the sea and harm animals.

**Overfishing** – catching too many fish upsets the reef's food chain.

**Coastal development** – building near the coast can damage coral and make the water dirty
