Enquiry Question of the week

How does Brazil compare with the UK?

Answer: Brazil is considerably larger in land size and population. Wealth and poverty exist alongside each other in both countries. Brazil has a wider range of biomes than the UK and is warmer due to its proximity to the Equator. The UK is a more developed country so opportunities are greater.

A summary of next week:

Writing: Writing the first draft of a non-chronological report about a rainforest creature

Maths: Order of operations, mental calculations

Science: Evolution

PSHE: How can we challenge unfairness?

Geography: Comparing Brazil with the UK.
