

Peek into next week Year 4

Things to know:

- ★ **IMPORTANT** -TUESDAY 14th NOVEMBER is individual photo day. Please send your child **to school** in school uniform and bring PE kit in to change into for PE and Forest School.
- ★ Children need to have a coat in school every day. Outside play will happen even in the cold, damp weather.
- ★ The November Carbon challenge was sent out this week - remember to complete as a family.

Enquiry Question of the week

Each week I will post an Enquiry Question from the week's learning alongside the answer we would expect. Ask your child the question and see how close your child is to answering the question fully. If they are finding it tricky, break down the answer together and see if they can work on learning more at home.

How can we change how quickly water evaporates?

Adding energy (heating) increases the rate of evaporation because at higher temperatures, more molecules are moving faster; therefore, it is more likely for a molecule to have enough energy to break away from the liquid to become a gas.
