

Peek into next week Year 4

Things to know:

- ★ On Friday 26th January we will be celebrating Australia Day. We would like the children to come dressed in yellow and green clothes. No football kits - unless it is an Australian team.

Enquiry Question of the week

1. What happens when the pitch of a sound is varied?

The pitch of a sound is closely related to its frequency. Generally, the higher the frequency of a sound wave, the higher the pitch we hear. This means that sounds with higher frequencies are heard as higher-pitched, while sounds with lower frequencies are heard as lower-pitched.
