Achieving Excellence Together in a Caring Community

Dear Parent(s) / Carer(s),

On Friday 2nd February, we will be taking part in the NSPCC's Number Day! The NSPCC have created this day to raise awareness for the work that they do with regards to supporting children and young people.

On Friday, instead of their regular Maths lesson, children will instead complete games, problem solving and different challenges that explore numbers in different ways. This will be planned by their teachers to be relevant for each year group.

Tomorrow, children will be sent home with a strip of paper. For one of their Dip and Do options, we would love children to get creative and design a number hat! Below are a few photos of possible examples but it really is a chance for your child to be creative! There will not be a prize or formal competition, it is really to get children excited about decorating an item with a number focus! On Friday 2nd February children will wear their normal school uniform but with their number hat as well!

Thank you in advance for helping your child with their hat, but also for sharing in their excitement as we explore numbers! If anyone feels that they can contribute, we will have buckets on the gate to collect money for NSPCC.

Thank you,

Mrs Macaulay
Maths Lead
