

Peek at the Week

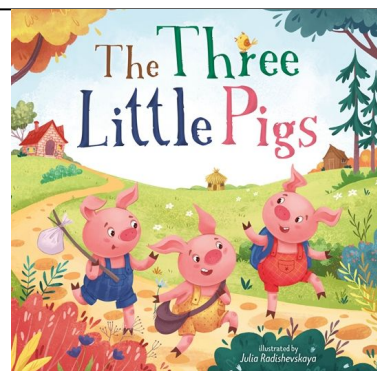

The Three Little Pigs

This week we have been looking out for the Big Bad Wolf as we read the story of the Three Little Pigs. The children have enjoyed creating their own puppets to retell the story as well as sequencing pictures on a story map. We also used different materials to try and build a wall that couldn't be blown down. We have been using our phonics to write speech bubble sentences for what the characters might be saying. On Friday, the children used straw mixed with wet mud to start building a wall by filling in the gaps of a wooden pallet. We will see how successfully that works when it dries out. We wanted to show them that it is possible to use straw as a building material.

In Maths, we have been exploring odd and even numbers. Using blocks the children made pairs. If there was one block left, they knew they had an odd number.

The children had their class photos this week and were very sensible in the Hall. They listened to instructions and gave their best smiley faces!

Reception can come to Choir!

On Thursday afternoon, Bronze and Silver classes went to the studio hall to do some singing. We wanted to show the children where choir happens and that singing together is lots of fun!. We had many enthusiastic children so, if your child would like to come to choir on a Tuesday after school (until 4:15pm), please sign them up through Gateways or look on the website for information. Please let your class teacher if you cannot find the information.

Mystery Reader! - WE NEED MORE OF YOU

We are in the summer term now! The children love having a visitor to read a story and they love the mystery!

Any member of the family can come and the children love it! If you would like to volunteer please secretly talk to or email your class teacher. **Remember –**

DON'T TELL YOUR CHILD! This is to be a surprise for them too!

Important Dates

Polling Day-School closed: Thursday 2nd May

Bank Holiday: Monday 6th May

FODs Break the Rules Day: Friday 26th May

Contacts

If you would like to contact any of us by email. We will reply as soon as possible within school working hours.

Please share these photographs with your children and encourage them to tell you what they have learnt this week.

Please share these photographs with your children and encourage them to tell you what they have learnt this week.

Have you written anything independently this week?

Please share these photographs with your children and encourage them to tell you what they have learnt this week.

How would you make a volcano? Be careful not to touch the lava!

A swimming pool made from magnetic tiles

It was great fun using our puppets to retell the story of the three little pigs. Have you made yours yet?

Proving that, just because something is bigger, it isn't necessarily heavier.

Can you adapt a rhyme. These children were singing:
'Rain, rain go away, come again another day.
Reception children want to play,
Rain, rain go away.'

Please share these photographs with your children and encourage them to tell you what they have learnt this week.

It can be tricky to navigate a full-size wheelbarrow when it is full.

So when you have worked out that it is an even number, then you need to find out how many there are, it is helpful to know how to count in 2s.

Making a city using the maths resources. What could you make?

Using nature to make a potion, or was it dinner?

Can you adapt a rhyme. These children were singing:
'Rain, rain go away, come again another day.
Reception children want to play,
Rain, rain go away.'
